

OVERVIEW

The CCUSBAB15 15ft USB A-B cable is designed for seamless connectivity in environments requiring high reliability and security, such as Secure KVM switches or other applications needing robust data transfer. This cable supports the connection between devices with USB A ports to those with USB B ports, ensuring efficient data transmission.

TAA Approved for use by the U.S. Government, this cable guarantees compliance with the strict standards set for federal procurement, making it an ideal choice for government installations, educational institutions, and corporate environments where compliance is mandatory. Its robust construction ensures durability and consistent performance, making it perfect for digital signage, multimedia setups, or any professional application where a reliable connection is crucial.

15 ft USB A-B Cable
